

GLOBAL CLOUD & BLOCKCHAIN SUMMIT

ABOUT THE SUMMIT

The Global Cloud & Blockchain Summit will take place in Toronto, Canada on August 13-14, 2018 as part of a series of events from August 13 to 16 and brings together executives from both the blockchain and cloud infrastructure industry.

The event will focus on trends in blockchain technology and opportunities for the cloud and datacenter industry. Learn about existing use cases and how certain cloud and datacenter companies have already begun to benefit from this new trend that is driving Web3.0.

This invite-only VIP summit will leave attendees ready to position their companies amongst the first-movers in the blockchain space. Rub shoulders with influencers and billionaires in the blockchain community and get your cloud and datacenter company ready for success in Web3.0.

The time is now for Cloud and Blockchain industries to converge.

Combine your attendance at GCB Summit with the Blockchain Futurist Conference 15th & 16th in Toronto Canada. The event is the largest and most high profile blockchain conference in Canada.

For more information on both events visit:

GCB Summit Agenda & Delegate Information

August 13-14, 2018 | Toronto, Canada

EVENT THEMES

During the event we'll be looking to cover a range of topics that help delegates get a better grip on how blockchain can be applied in the real world and what it means for their businesses and customers.

The event will be a mixture of keynotes, panel discussions and fireside chats covering the following key topics:

- **The Blockchain Landscape and Market Opportunities for Enterprise**
Insights into the market landscape for blockchain mainstream adoption and future trends.
- **Real World Applications of the Blockchain**
The application of blockchain has come on leaps and bounds in the last year, with an increasing number of real-life use cases appearing and affecting real change and innovation with organizations around the world. Hear about how first-movers are using blockchain to better their businesses and the industries they are part of.
- **Impact of Blockchain for Integrators and Supporters in the Digital Supply Chain**
As a network infrastructure provider, what does integration of blockchain into your business really mean? Experts in both blockchain and infrastructure will exchange ideas on the challenges involved with adopting blockchain, and how the various layers of the digital supply chain are converging to add more value to their customers.
- **Real and Potential Business Benefits of Blockchain**
Everyone wants to understand what it really means when its claimed that blockchain technology can save real costs, add large efficiency gains, and robust security benefits. We'll dig into each of these statements to uncover what the real and potential benefits of blockchain are and why.
- **How to: Your Guide on How to Get into the Blockchain Game**
Blockchain investors, entrepreneurs and innovators, as well as data centers and integrators will provide an insight into how they and their customers have adopted blockchain.

SPEAKERS

Al Burgio

Founder and CEO of DigitalBits™ and Fusechain

Al Burgio is a serial entrepreneur and founder of Fusechain and DigitalBits™, a blockchain protocol and network. The DigitalBits™ open-source decentralized blockchain enables the tokenization of digital assets, the transfer and trading of those tokens on-chain (with multihop), plus fast and secure payments and remittances. Al is also the founder of Console Connect, which was acquired by PCCW Global.

Christian Dawson

Co-Founder, Open-i Advisors, Executive Director i2Coalition

Christian Dawson is Executive Director of the Internet Infrastructure Coalition (i2Coalition) where he works to make the Internet a better, safer place for the businesses that make up the Cloud. Dawson is also Co-founder of Open-i Advisors Inc.

Dawson spent 16 years as an executive at web hosting provider ServInt. While there, he co-founded the Save Hosting initiative, designed to galvanize web hosting providers in their opposition of PIPA & SOPA. He went on to help co-found the i2Coalition to ensure that those who build the infrastructure of the Internet have a voice in all matters of public policy that affect them.

John Furrier

Co-Founder, Co-CEO, Head of Product, theCUBE

John Furrier is the cofounder co-CEO and the Chief Product Officer for theCUBE Blockchain Network platform. John was the co-founder and serves as the co-CEO of SiliconANGLE Media. With a degree in Computer Science from Northeastern University and MBA from Babson College, John has been a Silicon Valley entrepreneur since 1997 and is passionate about digital disruption including online converged media, social business, data science, cloud computing, AI, opensource, and blockchain. Prior to founding SiliconANGLE, John was the founder and CEO of PodTech Network, one of the first venture-backed podcasting ventures in 2004. Before that John was vice president of Product at RealNames, the pioneer in Internet search infrastructure and keyword navigation and at one-time powered keyword results for 70% of the world wide web. Early in his career, he worked for 9 years at Hewlett-Packard and IBM from 1986-97. He lives in Palo Alto California with his wife and four kids.

Anthony Di Iorio

Co-founder of Ethereum | Founder and CEO of Decentral and Jaxx

Anthony Di Iorio is a serial entrepreneur, venture capitalist, community organizer, and thought leader in the field of digital currencies, blockchain and decentralized technologies. He is the founder and CEO of Decentral and Jaxx, and co-founder of the Ethereum project, which hit a \$35B USD market cap earlier this year. He previously served as the Chief Digital Officer at the Toronto Stock Exchange / TMX Group.

Jaime Leverton

VP and General Manager of Canada and APAC for Cogeco Peer 1

Cogeco Peer 1 is a colocation, managed hosting and cloud services business. Jaime's focus is squarely on maximizing assets, leveraging current infrastructure, building a new partner channel, and investing in the future with innovative partnerships and projects such as Blockchain.

SPEAKERS

Jason Carolan

Chief Cloud Officer, Flexential

Jason leads the strategic direction and operations for cloud and network operations, security engineering, and ViaWest professional services. Jason joined ViaWest in 2011 and has previously held the roles of CTO and vice president of product development at ViaWest.

Kesem Frank

Aion Co-founder and CEO Bicameral

Kesem Frank, Co-Founder, Aion is a technology strategy expert specializing in cross enterprise system integration. Kesem led multiple projects within Deloitte's Technology Strategy and Architecture practice, before specializing in Blockchain technology. Kesem is an experienced team leader, having served as a naval officer with the IDF for 5 years. His passion for startups and innovation led him to join UofT's Creative Destruction Lab as a program fellow. At Aion, Kesem is responsible for day to day operations, product management and roadmap execution, advancing his company's mission to manifest the future that Blockchain enables.

Kesem achieved Cum Laude honors on both his undergraduate degrees of Law (LLB) and business administration (BA) and was awarded a scholarship towards his Masters of Business Administration (MBA) at the University of Toronto.

Kathryn Harrison

Director of Global Product Management, IBM Blockchain

Kathryn has 10+ years of delivering exceptional results across financial services, business development and product management. She has served as the product leader for Hyperledger Composer and responsible for the developer experience for IBM's Blockchain platform. She now heads up the global product management for IBM Blockchain.

Jenna Pilgrim

Co-Founder and COO, Network Effects

Jenna Pilgrim is the Cofounder and COO of Network Effects, an early-stage, blockchain-powered media startup. She is the former Director of Business Development at the \$multi-million Blockchain Research Institute. Jenna spends her days speaking to enterprise, government and members of the startup community about the potential of blockchain technology to transform nearly every facet of society. Jenna started her career at the Tapscott Group in 2015, as the hype-master for Don Tapscott and Alex Tapscott's book Blockchain Revolution, which has now become a bestseller in Canada and has been translated into 18 languages. Jenna then helped to build up the Blockchain Research Institute, raising over \$6M from companies and governments worldwide to fund strategic research into blockchain applications and implementation challenges.

Gabriel Abed

Founder at Bitt and Digital Asset Fund

Gabriel is an experienced founder with a demonstrated history of working in the computer software and FinTech industry. Skilled in Bitcoin, Blockchain, Central Banking, Strategic Partnerships, and Public Speaking. Strong entrepreneurship professional with a Bachelors focused in Information Technology, Majoring in Network Security with Honors from The University of Ontario, Institute of Technology.

SPEAKERS

Julian Kwan

Founder and CEO, InvestaCrowd.com, RealFuel.io, and Founder Team, ICTX.io

- Founder and CEO of InvestaCrowd.com, a capital markets licensed global real estate investment platform HQ in Singapore, building tech that creates a new, better and alternative investment universe
- Founder and CEO, RealFuel.io - Token for Powering Real Estate Platforms
- Founder Team, ICTX.io - Real Estate Security Token Exchange

Julian invests his own family capital (2H Cap) and maintain advisory roles with multi-family offices investing into Real Estate, PropTech and Blockchain startups through his family office 2H Capital, and is an EIR (Entrepreneur in Residence) at INSEAD SG campus.

Graeme Moore

VP of Marketing, Polymath

Graeme Moore is the Vice President of Marketing at Polymath. Polymath is a decentralized platform that makes it easy to raise capital and create security tokens. The Polymath ST-20 standard embeds regulatory requirements into the tokens themselves, restricting trading to authorized participants only. The platform simplifies the complex technical challenges of creating a security token and aims to bring the multi-trillion dollar financial securities market to the blockchain.

Prior to Polymath, Graeme has been the creative director at Spartan Race, an associate at Canada's largest independent investment advisory firm, and an analyst at one of the world's largest real estate brokerages.

Jor Law

Co-Founder, Verify Investor LLC

Jor Law is a co-founder of Homeier Law PC, where he practices corporate and securities law, including helping companies take advantage of alternative forms of capital raising such as Regulation D, Rule 506(c) offerings and crowdfunding. He is also a co-founder of VerifyInvestor.com, the resource for accredited investor verifications trusted by broker-dealers, law firms, companies, and investors who insist on safety and reliability.

David McCall

VP of Innovation, QTS

David believes good relationships and purpose affects one's life at every moment. He has been able to realize his calling to create teams that simplify and enhance people's interactions within the world of technology. In the industry since 1997, his career has been anything but typical leading IT and technical teams in Hyperscale, Cloud, Hybrid IT, and Colocation. In his spare time, David enjoys boardgames with friends, family time with his wife and three teenage daughters, and perfecting how to grill.

Andrew Kiguel

CEO, Director, Hut 8 Mining

Andrew joins Hut 8 from GMP Securities L.P., where he played an integral role for more than 18 years, including most recently as Managing Director, Investment Banking, as well as a key member of GMP's Blockchain Investment Banking Group. He is a co-founder of Hut 8 and played a fundamental role in the formation, structure, and financing of Hut 8. Andrew has extensive experience in providing investment banking services to numerous public and private entities, including raising equity and debt capital in excess of C\$3 billion over the last five years. He has also worked in an advisory role on numerous marquee M&A transactions.

SPEAKERS

Daniel Rafuse

President of Cloudminter, Cloudminter

Daniel Rafuse, trained as Real Estate Attorney and was later nominated as the Chairman of the Canadian Pension Tribunal, one of Canada's youngest administrative judges at the time. He then moved on to leadership positions in major industrial real estate concerns. Having served as Chief Operating Officer of one of Canada's largest mining concerns, he now serves as Chief Executive Officer of Cloudminter, one of the fastest growing companies in the data center, digital mining equipment space.

Perry Hothi

Vice President, Blockchain Technology for Argo Blockchain

Perry is the VP of Blockchain Technology for Argo Blockchain, which this month was the first cryptocurrency company to list on the London Stock Exchange. At Argo he's responsible for leading the development and execution of mining strategies, as well as supporting the growth of the company into other areas of blockchain innovation.

A hardware nerd at heart, Perry has been mining, exchanging and playing around with crypto for over 10 years. Formerly, Perry was the Chief Technology Officer at a major US bricks-and-clicks retailer, where he was responsible for developing the company's strategy for technological resources, and implementing new systems in 220 locations worldwide.

Peter Wall

VP Operations, Argo Mining | President, Vernon Blockchain

Peter is VP of Operations at Argo Mining, and Founder of Vernon Blockchain. He's passionate about how blockchain as a technology can impact people's everyday lives. Known as a guy who can get things done, Peter's varied career includes work as a team leader, journalist, and technology entrepreneur. Among his accomplishments are co-founding the first co-working space in Bali, leading the comms team on an ice-breaker expedition around Canada's 3 coasts, and launching a meditation app. Before all that he was a journalist with CBC for 10 years. When he's not brainstorming in front of a whiteboard, travelling to over 60 countries, or flying his drone, you can find Peter hanging with his wife and kids at home.

Bradley Rotter

Co-Founder, Board of Director at Entanglement Institute, Vice Chair, Rivetz

Bradley Rotter is a visionary investor who has pioneered investment in many new alternative investments classes. Bradley was awarded the Investor Dealers Digest Private Deal of the Year Award in 1996 for an innovative securitization which preceded an IPO on Nasdaq. Bradley has made numerous VC and PE investments, with a particular focus on internet and technology and spanning from hedge funds to satellites.

Nithin Eapen

Chief Investment Officer/Partner Arcadia Crypto Ventures

Investor, trader, technologist, speaker and entrepreneurial business leader. Creator of the Belpointe Crypto Index (Bloomberg Ticker CRYPTO).

SPEAKERS

Mike Segal

Vice President, Sales, ROOT Data Center

Mike is responsible for ROOT's largest wholesale colocation customers, while cultivating the firm's international partnerships. Prior to joining ROOT, he served as VP of global business development at Q9 Networks. Mike brings an international pedigree to ROOT, having spent five years living and working in Europe. While leading business development for the International Data Center Group, he established partnerships with data centers in emerging markets in Asia, Africa and Eastern Europe. He holds a B.Comm from McGill University and a MSc in global politics from the London School of Economics.

Manie Eagar

CEO, DigitalFutures

Founder & Executive Chairman of Quantex Ltd. - Quantum Exchange & Banq.

Founder: Global BlockForum Association (Swiss)

CEO of DigitalFutures, a consultancy focusing on innovations in fintech, cryptocurrency and blockchain technologies, ICO's and TAO's (Tokenized Asset Offerings).

International track record in banking (Barclays/ABSA), IT/telecommunications (Dimension Data & Vodafone), investment management (J&J Group/Old Mutual), and cryptocurrencies (Bitcoin Alliance of Canada).

Michael Bucella

Partner, BlockTower Capital

Mike was with Goldman Sachs since 2008, most recently with responsibility for Multi-Asset Sales & Trading in Canada and for leading efforts to expand the strategy globally. Previously, he helped lead Goldman's Institutional Global Equities business, and prior to that, was part of the firm's Asset Management division (GSAM). Mike holds a BS in Finance, Economics and Accounting from Fordham University.

Matthew Roszak

Co-Founder, Bloq, Founding Partner, Tally Capital

Matthew Roszak is a sought after thought leader on blockchain technology, and has testified as an expert before U.S. Congress and spoken at the U.S. Federal Reserve. Mr. Roszak has presented at TEDx, been featured on CNBC and quoted in The Wall Street Journal, Bloomberg and Financial Times. In addition, Mr. Roszak has been a speaker at FinTech conferences worldwide, including Money20/20, CES and American Banker.

MONDAY, 13TH

12:00pm

CHECK-IN & BADGE COLLECTION

Check-in and collect your delegate badge at the Westin Harbour Castle at the front lobby.

7:00pm

OPENING RECEPTION & COCKTAILS

Join the other delegates and speakers for networking, drinks and fireside chat at the stunning Westin Harbour Castle hotel and event location.

8:00pm

Welcoming to Global Cloud & Blockchain Summit

8:20pm

Fireside Chat with Matthew Roszak, John Furrier and Al Burgio

TUESDAY, 14TH

8:00am

BREAKFAST & REGISTRATION

9:00am

Master of Ceremony

9:10am

Welcoming from Platinum Sponsor

9:25am

KEYNOTE: Insights from the Co-founder of Ethereum | Founder and CEO of Decentral and Jaxx

10:05am

Panel: Embracing Blockchain Technology as a Cloud Provider

How do managed cloud providers evaluate which emerging technology to embrace. Is blockchain on the radar and how do cloud providers see blockchain affecting enterprises' use of cloud.

10:45am

AM BREAK

11:15am

Panel: Making Blockchain Work in Business - What are the Real World Applications of the Blockchain

The blockchain world has this year made stunning progress in moving out of R&D and into the real world. Hear from the panel of real-world examples on how they are using Blockchain to better the industries they are part of.

11:55am

Panel: The Tokenization of Global Assets Revolution

The 'Tokenization of Everything' is upon us. This panel will explore this digital transformation, the benefits of tokenizing existing assets, key areas of tokenization that are leading, such as real estate and others, as well as dip into the tokenization industry and ecosystem.

12:35pm

LUNCH

1:35pm

Panel: Blockchain, Friend or Foe to Infrastructure Providers and Public Clouds

Debate around the transformation of the digital supply chain and how blockchain technology and its myriad of potential use cases will impact cloud and infrastructure operators.

2:15pm

Panel: Crypto Mining and the Datacenter

As the process of cryptocurrency 'mining' has become more complex, mining infrastructure has developed into a specialist but potentially profitable offering for colocation providers and managed services. We discuss the challenges and opportunities this presents to datacenter providers for the future, and for embracing blockchain technology and its potential use cases.

2:55pm

Panel: Crypto Capital Raising & Security Tokens

An in depth discussion around these new forms of financing in the crypto space, what it means to issue fully-regulated "digital shares", the ICO market, and the future of security tokens.

3:35pm

PM BREAK

4:05pm

KEYNOTE: Blockchain Investor Insight: Why We're "Backing Blockchain"

Hear from leading institutional investors and why they are all-in on blockchain.

4:45pm

Closing Remarks

Join us and other delegates for a special dinner to close the event.

5:00pm

LEISURE TIME

6:15pm

CLOSING DINNER: LUMA RESTAURANT - Location: 350 King Street West
